7

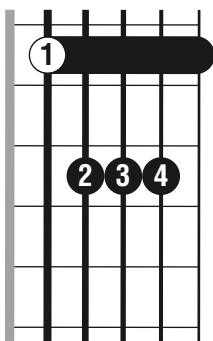

m7

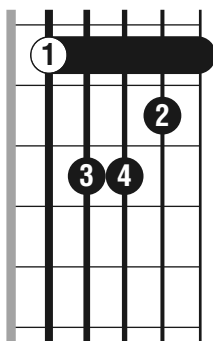

Accords barrés de type 2

Ces 4 positions d'accords barrés sont transposables grâce au repère de la tonique, qui donne le nom à l'accord.

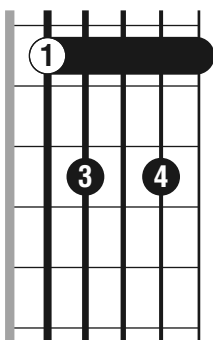

majeur

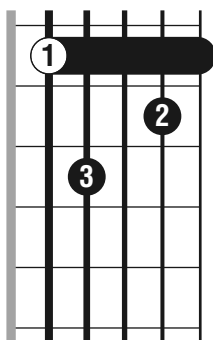

mineur

7

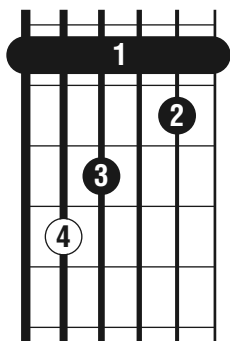

m7

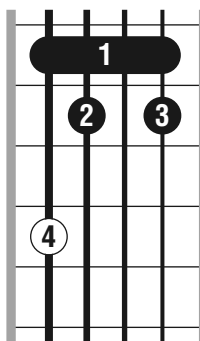

Accords barrés de type 3

Ces 4 positions d'accords barrés, plus difficiles et moins courantes, sont transposables grâce au repère de la tonique, qui donne le nom à l'accord.

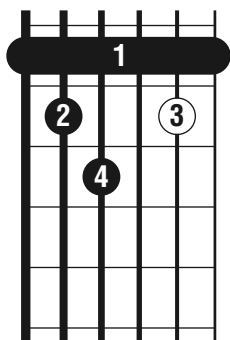

majeur

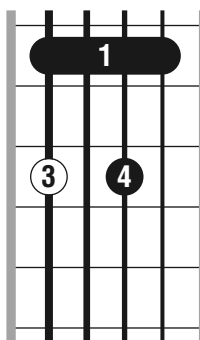

mineur

7

m7

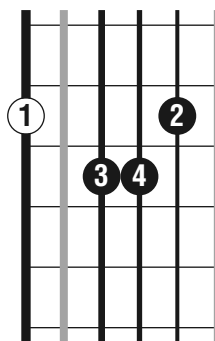

Positions de l'accord M7

Composition de l'accord M7 :

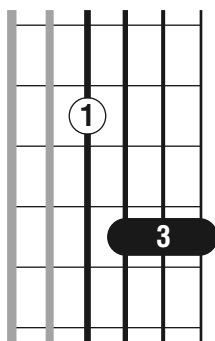

- Tonique
- Tierce majeure
- Quinte juste
- Septième majeure

Ces 5 positions sont transposables grâce au repère de la tonique, qui donne le nom à l'accord.

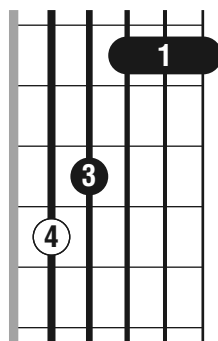

Position 1

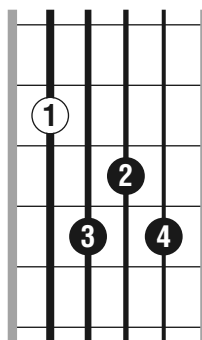

Position 2

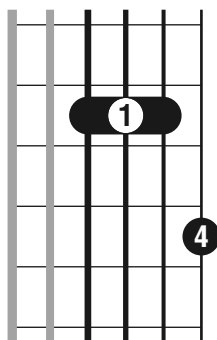

Position 3

Position 4

Position 5

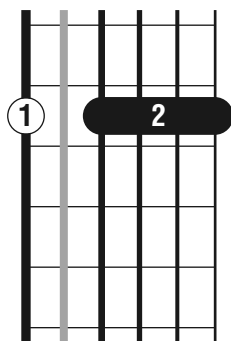

Positions de l'accord m7

Composition de l'accord m7 :

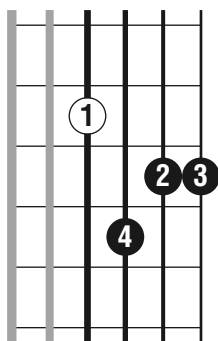

- Tonique
- Tierce mineure
- Quinte juste
- Septième mineure

Ces 5 positions sont transposables grâce au repère de la tonique, qui donne le nom à l'accord.

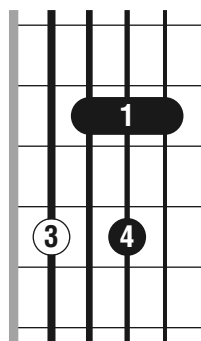

Position 1

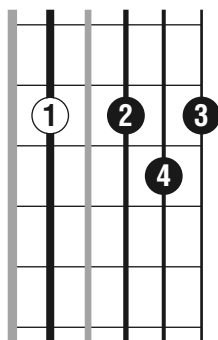

Position 2

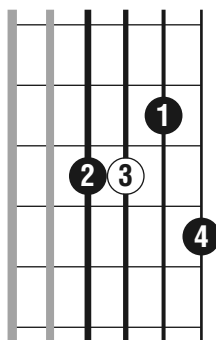

Position 3

Position 4

Position 5

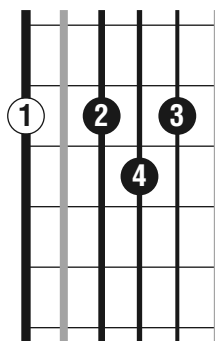

Positions de l'accord 7

Composition de l'accord 7 :

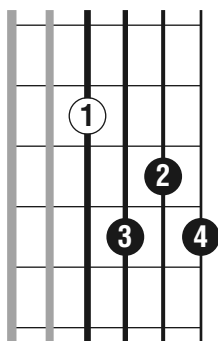

- Tonique
- Tierce majeure
- Quinte juste
- Septième mineure

Ces 5 positions sont transposables grâce au repère de la tonique, qui donne le nom à l'accord.

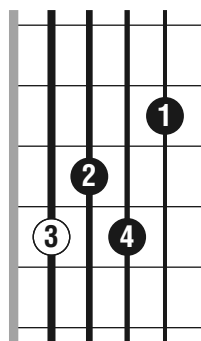

Position 1

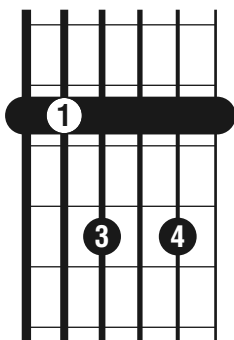

Position 2

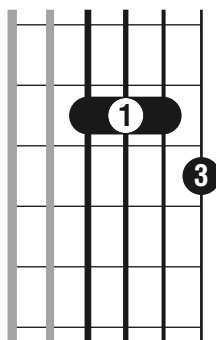

Position 3

Position 4

Position 5

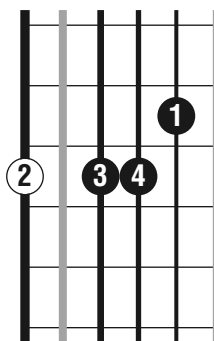

Positions de l'accord $m7^{b5}$

Composition de l'accord $m7(b5)$:

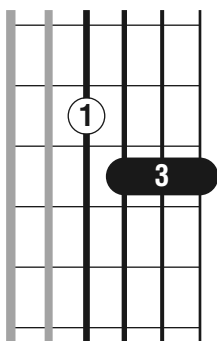

- Tonique
- Tierce mineure
- Quinte diminuée
- Septième mineure

Ces 5 positions sont transposables grâce au repère de la tonique, qui donne le nom à l'accord.

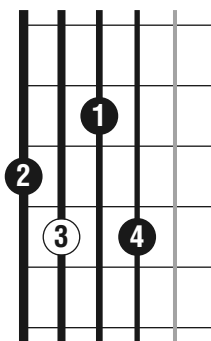

Position 1

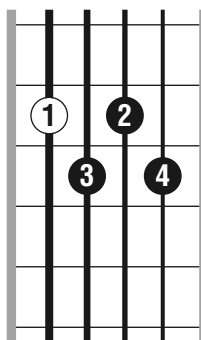

Position 2

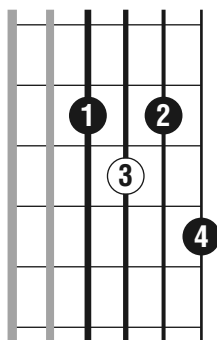

Position 3

Position 4

Position 5

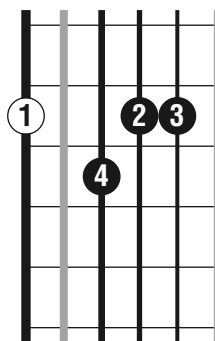

Positions de l'accord mM7

Composition de l'accord mM7 :

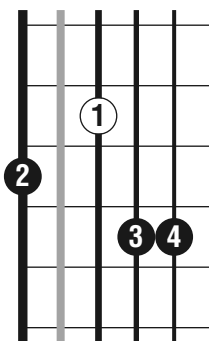

- Tonique
- Tierce mineure
- Quinte juste
- Septième majeure

Ces 5 positions sont transposables grâce au repère de la tonique, qui donne le nom à l'accord.

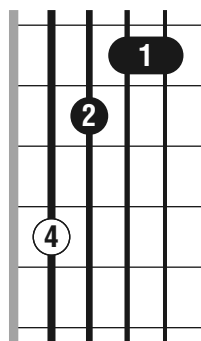

Position 1

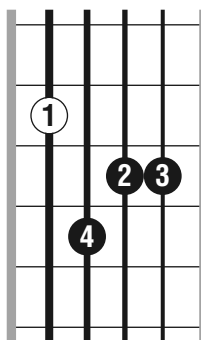

Position 2

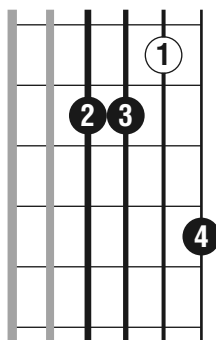

Position 3

Position 4

Position 5

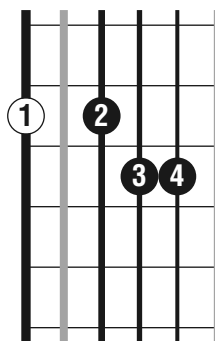

Positions de l'accord aug7

Composition de l'accord aug7 :

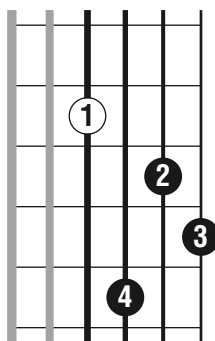

- Tonique
- Tierce majeure
- Quinte augmentée
- Septième mineure

Ces 5 positions sont transposables grâce au repère de la tonique, qui donne le nom à l'accord.

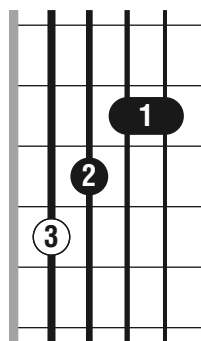

Position 1

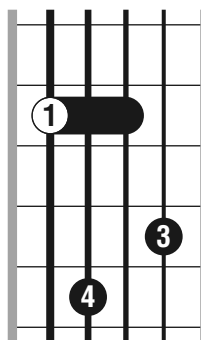

Position 2

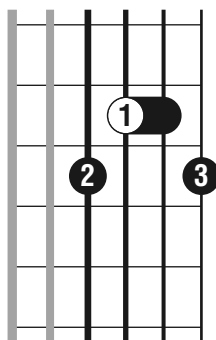

Position 3

Position 4

Position 5

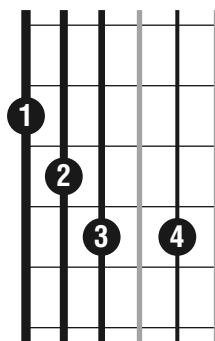

Positions de l'accord dim7

Composition de l'accord dim7 (°7) :

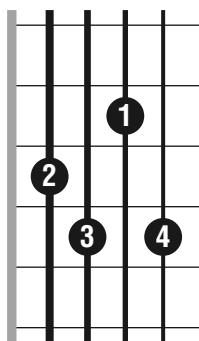

- Tonique
- Tierce mineure
- Quinte diminuée
- Septième diminuée (bb)

L'accord dim7 est un empilement sans fin de tierces mineures. Il suffit donc de faire figurer la tonique pour obtenir un renversement de l'accord.

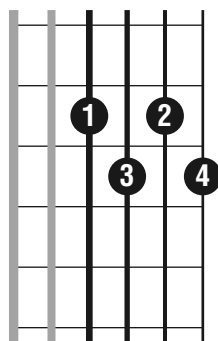

Position 1

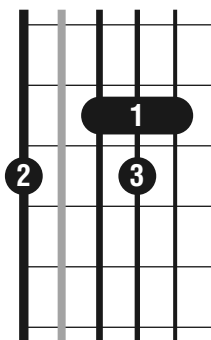

Position 2

Position 3

Position 4

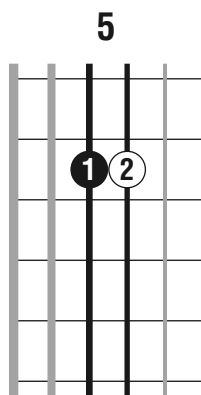

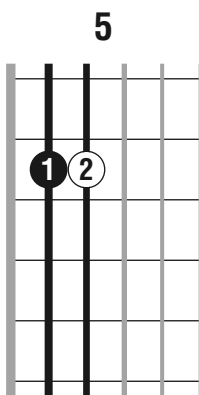

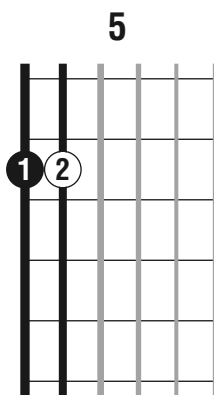

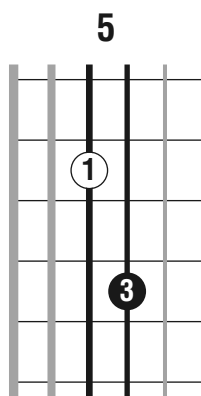

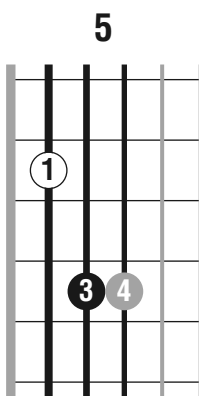

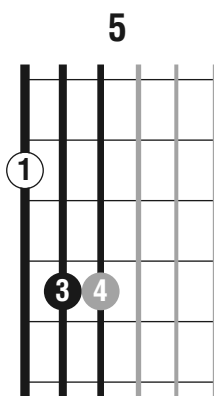

Accords de Puissance

Composition du «power chord» :

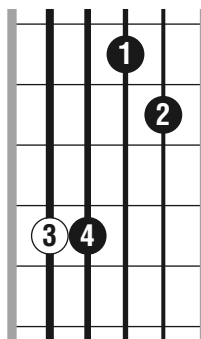

- Tonique
- Quinte juste

Ces 6 positions sont transposables grâce au repère de la tonique, qui donne le nom à l'accord.
